## 2010 strategic plan

Every year, One Voice for Volusia conducts a strategic planning session with coalition members which is ultimately reviewed and approved by the Board of Directors. The process is intentionally facilitated and has been a core function of the community coalition since its inception more than a decade ago. While the brainstorming sessions to create the one to three-year plan may change in its goals and action steps, the objective is clear: we will achieve what we set out to do if there is a plan guiding us. Of course, One Voice for Volusia is flexible as opportunities arise, but the strategic plan keeps us on track.

In 2009, the brainstorming session was conducted at the November coalition meeting and was interactive with 8 tables of 10 individuals (totaling almost 80 participants) who were asked to discuss the Plus', Minus' and Interesting factors as well as rank - by level of importance as a table - the internal and external functions of One Voice for Volusia. Now in our 10<sup>th</sup> year as a community coalition and 7<sup>th</sup> year receiving federal funding, it is important to determine what is most valuable to the community and the functions One Voice for Volusia has acquired, spearheaded or managed today and in the future.

How valuable these functions are to our members will guide the strategies for 2010 and over the next several years. Let's take a look:

Internal/Coalition Functions & Ranking of Importance		External Functions & Ranking of Importance

Community Connector	4.5	Community Agenda	4.2
Websites	3.5	Connecting the Faith Community	2.5
